Abstract of US2003173389

These abstracts show that the Card & Comics Collectors Backpack is a new idea. The card collector's backpack has three clear plastic pockets on the front of the bag. It also has clear plastic pocket on each shoulder strap that holds a single card. Inside the backpack, which unzips from the right side that allows the backpack to open up like a book. It has a three ring binder, which will pull open to hold Trading Cards Pages. You will also find mesh pockets to hold a new deck of cards. The Comics Back Pack is basically the same the only difference is, it has a clear plastic pocket that is made to carry a comic book on the front of the bag cover and no pockets on the straps.
